About me

Skilled Full-Stack Software Engineer specializing in backend development with .NET Core and frontend with Angular. Dedicated to building efficient, maintainable systems and solving technical challenges with clean, scalable solutions.

Experience

❖ Software Engineer Intern

Giga Tech LTD. | Dec 2024 - Feb 2025

Worked on an enterprise-level **eKYC (Electronic Know Your Customer)** platform for banks.

- Backend: Contributed to **mgbl-ekyc-onboarding-backend**, a microservice-based backend using .NET Core and SQL Server.
- Frontend: Contributed to **mgbl-ekyc-onboarding-selfled** using Angular, focusing on bug fixing and performance optimization.
- Gained hands-on experience in real-time onboarding, biometric verification workflows, and RESTful API standards.

❖ Freelance .NET Developer (Project-Based)

Remote | Feb 2025 – Present

- Handled backend development tasks in a freelance capacity using .NET Core, Entity Framework, and SQL Server.
- Implemented RESTful APIs, authentication logic, and contributed to bug fixing and optimization.
- Gained hands-on experience simulating freelance/client-style development, version control, and teamwork.

❖ Junior Software Engineer

Nimusoftware Technologies LTD. | May 2024 - Oct 2024

- Designed and developed an inventory management app for a school management system.
- Built and integrated backend APIs using Python, Django, and AJAX to support real-time data operations.
- Contributed to multiple features, learning SDLC practices, and teamwork dynamics.

Education

B.Sc. in Computer Science and Engineering.

EUB - European University of Bangladesh.

Passing year 2023

Skills

Languages:

C#, Python, TypeScript, SQL

Framework & Library:

.NET Core, Django, Django REST Framework, Angular, React.js, AJAX, Bootstrap, Tailwind

Database:

MySQL, PostgreSQL, Firebase

Version Control System:

Git, Github

Tools & Software:

Postman, Celery, Redis, Docker, Visual Studio, VSCode, PyCharm

Soft Skills

Communication, Teamwork, Adaptability, Problem-Solving, Interpersonal Skills, Time Management.

Extracurricular Activities

Assisted in learning programming fundamentals like C, C++, and Python, fostering collaboration and skill development among fellows and juniors.

Interests

Web, AI, Mobile Apps, Problem Solving.

Language

Bangla, English
